Re.: ISE Fellow Appointment

Dear Professor Frackowiak,

I am writing to you in connection with your nomination for an ISE Fellow, which was submitted to ISE in 2022. Your nomination was considered by the Fellow Nomination Committee. Based on your excellent scientific record, the Fellow Nomination Committee recommended your nomination to the Executive Committee for acceptance.

The Executive Committee decided to follow the recommendation of the Fellow Nomination Committee. Therefore, I am very happy that I can welcome you as a new Fellow of the International Society of Electrochemistry.

I would also like to express my hope and conviction that the ISE will be able to rely on your help in its mission – advancement and development of the electrochemical science and technology.

Sincerely yours,

Professor Marc Koper  
ISE President
